## About Distinct Paradigm

Distinct Paradigm provides technology implementation and process improvement services to the federal government as well as state and local municipalities. We pride ourselves in our ability to navigate the government's unique culture and deliver on complex IT strategies through real world experience.

Our team supplies reliable, proficient resources well-versed in various fields and industries. Much like a utility knife, our staff knows the right approach to meet and exceed our clients' expectations.

## Core Competencies

Distinct Paradigm helps customers in achieving their technology goals by offering technical expertise to fulfill their short-term and long term targets.
